Major Development Public Company Limited and its subsidiaries Review report and interim financial information For the three-month and six-month periods ended 30 June 2020

#### Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of Major Development Public Company Limited

I have reviewed the accompanying consolidated statement of financial position of Major Development Public Company Limited and its subsidiaries as at 30 June 2020, the related consolidated statements of income and comprehensive income for the three-month and six-month periods then ended, and the related consolidated statements of changes in shareholders' equity and cash flows for the six-month period then ended, as well as the condensed notes to the interim consolidated financial statements. I have also reviewed the separate financial information of Major Development Public Company Limited for the same periods (collectively "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*. My responsibility is to express a conclusion on this interim financial information based on my review.

#### Scope of review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

#### Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*.

**Emphasis of Matter** 

I draw attention to Note 1.5 to the interim consolidated financial statements. Due to the impact of

the COVID-19 outbreak, in preparing the interim financial information for the three-month and

six-month periods ended 30 June 2020, the Group has adopted the Accounting Guidance on

Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the

COVID-19 Pandemic issued by the Federation of Accounting Professions.

The COVID-19 pandemic is continuing to evolve, resulting in an economic slowdown and

adversely impacting most businesses and industries in terms of supply chains, consumer

spending, limited or suspended production, operational delays, and more.

This situation significantly affects the Group's business activities in terms of the temporary suspension

hotel business operations, and this is impacting the Group's financial position, operating results,

and cash flows at present, and is expected to do so in the future. However, the impact cannot be

reasonably estimated at this stage. The Group's management has continuously monitored

the ongoing developments and assessed the financial impact in respect of the valuation of assets,

provisions and contingent liabilities, and will record the impact when it is possible to do so.

My conclusion is not modified in respect of this matter.

Major Development Public Company Limited and its subsidiaries Notes to interim consolidated financial statements For the three-month and six-month periods ended 30 June 2020

#### 1. General information

#### 1.1 General information of the Company

Major Development Public Company Limited ("the Company") is a public company incorporated and domiciled in Thailand. The Company and its subsidiaries are principally engaged in the development of properties for sales, hotel business and properties rental and service business. The registered office of the Company is at 141 Soi Sukhumvit 63 (Ekamai), Sukhumvit Road, Klongton Nua, Wattana, Bangkok.

#### 1.2 Coronavirus disease 2019 Pandemic

The Coronavirus disease 2019 pandemic is continuing to evolve, resulting in an economic slowdown and adversely impacting most businesses and industries in terms of supply chains, consumer spending, limited or suspended production, operational delays, and more.

This situation affects the Group's business activities in terms of the temporary suspension of hotel business operations, and this is impacting the Group's financial position, operating results, and cash flows at present, and is expected to do so in the future. However, the impact cannot be reasonably estimated at this stage. The Group's management has continuously monitored ongoing developments and assessed the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and will record the impact when it is possible to do so.

#### 1.3 Basis for the preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 Interim Financial Reporting, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, statements of income, comprehensive income, changes in shareholders' equity, and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language financial statements.

#### 1.4 Basis of consolidation

These interim consolidated financial statements included the financial statements of Major Development Public Company Limited and its subsidiaries, and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2019, with the same composition of the subsidiaries in the current period.

#### 1.5 New financial reporting standards that became effective in the current period

During the period, the Group has adopted the revised (revised 2019) and new financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements. However, the new standard involves changes to key principles, which are summarised below:

#### Financial reporting standards related to financial instruments

A set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows:

Financial reporting standards:

TFRS 7 Financial Instruments: Disclosures

TFRS 9 Financial Instruments

Accounting standard:

TAS 32 Financial Instruments: Presentation

Financial Reporting Standard Interpretations:

TFRIC 16 Hedges of a Net Investment in a Foreign Operation

TFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments.

These standards do not have any significant impact on the Group's financial statements.

#### **TFRS 16 Leases**

TFRS 16 supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases.

The Group adopted these financial reporting standards using the modified retrospective method of initial adoption of which the cumulative effect is recognised as an adjustment to the retained earnings as at 1 January 2020, and the comparative information was not restated.

The effect of the change is described in Note 2.

# Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic

The Federation of Accounting Professions announced Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic. Its objectives are to alleviate some of the impact of applying certain financial reporting standards, and to provide clarification about accounting treatments during the period of uncertainty relating to this situation.

On 22 April 2020, the Accounting Treatment Guidance was announced in the Royal Gazette and it is effective for the financial statements prepared for reporting periods ending between 1 January 2020 and 31 December 2020.

The Group has elected to apply the following temporary relief measures on accounting alternatives:

- Not to take into account forward-looking information when determining expected credit losses, in cases where the Group uses a simplified approach to determine expected credit losses.
- Not to use information relating to the COVID-19 situation that may affect financial forecasts used in measuring the fair values of investment property.
- Not to use information relating to the COVID-19 situation in determining whether sufficient taxable profits will be available in future periods against which deferred tax assets can be utilised.
- Not to consider the COVID-19 situation as an indication that an asset may be impaired in accordance with TAS 36, *Impairment of Assets*.

#### 1.6 Significant accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2019 except the changes in accounting policies related to financial instruments and leases.

#### 1.6.1 Financial instruments

#### Classification and measurement

Financial assets that are debt instruments are measured at fair value through profit or loss, fair value through other comprehensive income, or amortised cost. Classification is driven by the Group's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Financial assets that are equity instruments are measured at fair value through profit or loss.

Financial liabilities are classified and measured at amortised cost.

#### Impairment of financial assets

The Group recognises an allowance for expected credit losses on its financial assets measured at amortised cost, without requiring a credit-impaired event to have occurred prior to the recognition. The Group accounts for changes in expected credit losses in stages, with differing methods of determining allowance for credit losses and the effective interest rate applied at each stage. An exception from this approach is that for trade receivables or contract assets that do not contain a significant financing component and lease receivables, the Group applies a simplified approach to determine the lifetime expected credit losses.

#### 1.6.2 Leases

#### Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised through initial measurement, initial direct costs incurred, and lease payments made at or before the commencement date, less any lease incentives received.

Unless the Group is reasonably certain that it will obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis from the commencement date of the lease to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

#### Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of the lease payments to be made over the lease term, discounted by the interest rate implicit in the lease or the Group's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification or reassessment.

#### Short-term leases and Leases of low-value assets

Payments under leases that, have a lease term of 12 months or less at the commencement date, or are leases of low-value assets, are recognised as expenses on a straight-line basis over the lease term.

# 2. The effects of changes in accounting policies due to the adoption of new financial reporting standards

As described in Note 1.5 to the financial statements, during the current period, the Group has adopted financial reporting standards related to financial instruments and TFRS 16. The effect of initially applying these standards is recognised as an adjustment to retained earnings as at 1 January 2020. Therefore, the comparative information was not restated.

The impacts on the beginning balance of the consolidated statement of financial position of 2020 from changes in accounting policies due to the adoption of these standards are presented as follows:

(Unit: Thousand Baht)

	Consolidated financial statements

Non-current liabilities

#### 2.1 Leases

Upon initial application of TFRS 16 the Group recognised lease liabilities previously classified as operating leases at the present value of the remaining lease payments, discounted using the Group's incremental borrowing rate at 1 January 2020. For leases previously classified as finance leases, the Group recognised the carrying amount of the right-of-use assets and lease liabilities based on the carrying amounts of the lease assets and lease liabilities immediately before the date of initial application of TFRS 16.

## 17. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make about the allocation of resources to the segment and assess its performance.

For management purposes, the Group is organised into business units based on its products and services and have three reportable segments as follows:

- The property development business segment, which engages in the development of land and houses and residential condominium units for sale
- The hotel business segment, which engages in the provision of services relating to rooms, food and beverages and other services related to accommodation and travel
- The rental and service business segment, which engages in the rental of spaces in office buildings

No operating segments have been aggregated to form the above reportable operating segments.

The chief operating decision maker monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and on a basis consistent with that used to measure operating profit or loss in the financial statements. However, the Group's financing activities (including finance costs and finance income) and income taxes are managed on a Group basis and are not allocated to operating segments.

Inter-segment revenues are eliminated on consolidation.

As at 30 June 2020, the Group placed deposits at banks of Baht 13.4 million (Separate financial statements: Baht 1.8 million) (31 December 2019: Baht 38.5 million, Separate financial statements: Baht 1.8 million) and mortgaged the land and construction of condominium projects with the banks to secure the issuance of bank guarantees.

#### 18.5 Long-term service commitment

A subsidiary has entered into management agreement with a local company whereby the latter will provide the hotel management services to the subsidiary. The term of the management agreement is 10 years, starting from the hotel renovation is completed. Under the terms of the above agreement, the subsidiary commits to pay a management fee and incentive fee, at the rates indicated in the agreement.

## 18.6 Litigations

As at 30 June 2020, the following lawsuits have been filed against the Group and joint venture.

a) The Group was sued by third parties on ground of seeking refunds of payments for condominiums, payment of construction and other expenses, and a joint defendant with the constructor for damaged properties in 30 cases, claiming damages of Baht 231 million. Currently, the cases are being investigated. However, the Group's management and its legal consultant have determined the possible losses from the litigations and recorded provision amounting to Baht 128 million in its accounts.

- b) A subsidiary filed a lawsuit against a land seller for the repayment of land deposits amounting to Baht 100 million as the seller could not transferred the ownership to the subsidiary. Currently, the case is considering by the Court of First Instance. However, the Group's management and its legal consultant are of the opinion that the subsidiary has a chance of winning the case. Consequently, the management assessed recoverable amount of such deposit and recorded Baht 25 million allowance for doubtful debts for estimated loss that might be incurred.
- c) A joint venture filed, a notice demanding the portion of construction service fees and claimed for the damages incurred from the termination of contract due to the unfair event with a customer, with the Thai Arbitral Tribunal for the claim amount of Baht 144 million. However, the customer countersued the joint venture on the grounds that the joint venture failed to deliver the work within the agreed deadline and demanded compensatory damages for the work delay of Baht 202 million. In 2019, the customer submitted a request to amend the claim amount to Baht 200 million. Currently, the dispute is under the process of the investigation of the facts. In this regard, the joint venture submitted the facts and evidence for the interest of the dispute to be considered by the Thai Arbitral Tribunal. The Group's management and its legal consultant are of the opinion that the joint venture has evidence and information according to the contract to defend the issue in this dispute and considers that the dispute will probably not result in the joint venture incurring losses. Therefore, the joint venture has not recorded the estimated losses of relevant assets or provision in its accounts.

#### 19. Fair value of financial instruments
